

## Food Chain Diagram Worksheet Grades 3-5

Name \_\_\_\_\_ -

Instructions: Read all of these instructions carefully before you begin because I have intentionally not put them in a logical order. Draw with little sketches a food chain diagram and label each portion. Include a butterfly larvae, the source of energy for all plants and animals, a predator of the butterfly larvae, and a food producer. Include the arrows to show how the energy is transferred

Bar graph of growing larvae over time. Your teacher will instruct you.

Length of larvae

2.5 cm									
2 cm									
1.5 cm									
1 cm									
½ cm									
Days	1	3	5	7	9	11	13	15	17
